Concerning: Class Action Lawsuit

Mr. Ortega,

I have been rereading the documents prepared for the court. I find myself unable to agree with some of the statements made.

I do not believe that there is a Ponzi Scheme.

I also don't believe that there is a conspiracy on the part of Board members to defraud based on water costs. I believe that they are honestly trying to keep this community going in very difficult times. They are after all volunteers and I believe that they are operating with what they feel are the best interests of the community.

I must therefore opt out of the class action suit. I would be grateful if you could insure that my name is removed from court documents and inform your legal counsel of this.

Yours,

Andrew Chalmers
